

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ADVERTISEMENT.

IN the Republication of the present Volume, which contains a General Index of the Titles and Divisions of the Principal Matters in VINER'S ABRIDGMENT, as also in several other General Abridgments of Law and Equity, it has been judged a desirable improvement to incorporate, in like manner, references to the subject-matter contained in the latter volumes of *Bacon's Abridgment*, and in the *Digest* of Lord Chief Baron Comyns *, published since the original edition of VINER'S ABRIDGMENT; by which the reader is possessed, under one view, of an Index to the several principal Abridgments of Law and Equity.

The Titles, MAXIMS and STATUTES have also been added, with proper references to the several volumes of VINER'S ABRIDGMENT, in order, in some measure, to supply the original intention of the Author, and to extend the general utility of this volume.

* This Work is denoted, throughout this Index, by the abbreviation *Com. i*, 420, &c.

ARBITREMENT.

Com. i.

Award, what shall be a good one:	540
Must be pursuant to submission.	540
And therefore shall be void as to a stranger.	540
When it goes to time beyond submission.	541
Or, to a matter not submitted.	541
Or, does not extend to all matters submitted.	542
Where submission is conditional, with an <i>ita quod</i> , &c.	542
Or, to all persons.	543
But it is sufficient, if things determined by award be within submission, though thing to be done be out of it.	543
So award to stranger is good, where concerned only as instrument.	543
And award is void, only for so much as out of submission.	544
Nor shall be intended out of it, if it does not so appear.	545
Award must be certain.	545
Possible.	547
Reasonable.	547
Mutual.	547
